The Fire Safety Trailer is a mobile classroom that teaches children burn prevention and fire safety in a fun and safe way. The trailer is equipped with a kitchen, bedroom, and living room. It fills with a nontoxic water-based smoke to teach children to "crawl low" to safety. A heated door helps children choose the right exit. An escape ladder is used to exit from the bedroom. If a child suffers from asthma, other respiratory conditions, or allergies that may be irritated by the nontoxic smoke, please Inform us before allowing him/her to tour the trailer.
